Surgical Pathology Services

Medical Director: Robert O. Shaver, M.D.

PLA Surgical Pathology Laboratory

- Full service Surgical Pathology Laboratory with twelve pathologists.
- Next day turnaround time on most routine specimens.
- The availability of a menu of over 100 special stains, immunohistochemical stains and immunofluorescent stains to aid in the evaluation of tissue.
- Use of ChromaVision® Automated Cellular Imaging System to evaluate breast cancer protocol studies (accurately quantitates ER/PR status and decreases false positive results in evaluation of Her-2/neu expression.)

PLA is committed to offering the advantages of high quality tertiary care technology and diagnostic surgical pathology expertise to the challenging outpatient care environment.

Board Certified and Pathology Subspecialty Services

- PLA offers Subspecialty Pathology Services in the following areas:

Dermatopathology	Amy R. Hudson, M.D.
Transfusion Medicine	Brian D. Quinn, M.D.
Cytopathology	Hal E. Palmer, M.D.
Hematopathology	Maria C. Porter, M.D.

- Consulting Pathology Subspecialty Services
Gastrointestinal Pathology Laura W. Lamps, M.D.

We are very proud of our tradition of excellence in Pathology, our ability to provide board certified, experienced, highly trained pathologists and our staff's willingness to deliver superior service.
